Applicant hereby petitions for revival of the above-identified U.S. patent application for failure to continue prosecution after a final action by the Examiner, and states that the non-payment of the issue fee was <u>unintentional</u>.

The maximum statutory time period after for filing an appeal or a request for continued examination (RCE) ended November 20, 2003. An amendment and response was filed in response to a final rejection of the application on November 20, 2003. Unfortunately and unintentionally, a request for continued examination was not filed with the amendment and response. A responsive Advisory Action from the U.S. Patent Examiner was received on January 7, 2004. It was only upon receiving this Advisory Action that Applicant's representatives became aware that an RCE had not been filed on the above-identified application.
